

Pole Maintenance

ColumnMATE

Applications:

Traffic Signal, Street Lighting, Illuminated Signs, Information Signs, CCTV Columns

The ColumnMATE™ from NAL has been designed to aid in the cabling of traffic signal poles. With its stable footprint the signal pole can be strapped and secured to the ColumnMATE™ while all top cap cabling is carried out.

The ColumnMATE™ is manufactured from lightweight aluminium ensuring manual handling is reduced and can be folded flat for easy transportation in the maintenance vehicle.

Advantages

- ◇ Fast and easy to set up
- ◇ Lightweight
- ◇ Stable footprint
- ◇ Designed for the industry
